NEWS OF THE DAY.

The extent of the fire in the Ghetto in Presburg, Hungary, Saturday, when 8,000 persons were rendered homeless, might have been considerably lessened but for the strict religious observances of the Orthodox Jews in refusing to perform any labor on the Sabbath. It was only after the chief rabbi gave his congregation dispensation that they consented to save the women and children. The Ghetto, which was the most ancient in Europe, was destroyed. While the buildings were burning the people stood by and saw all their possessions swept by the flames, but refused to render any assistance in extinguishing the fire.

Three women were killed, one man was fatally hurt, and another was seriously injured when a Baltimore and Ohio express train struck an automobile in which the party were riding at Leavittsburg, Ohio, late yesterday afternoon. Four of the occupants were carried for 200 yards on the pilot of the engine. The dead are Mrs. Henry Turner, 75; Mrs. Frank Housel, 40; Mrs. Ward Turner, 40.

The finding of an overturned canoe in Cayuga Lake, near Ithaca, N. Y., has led to fears that four Cornell University students, two of them young women, who went for a ride in the canoe Saturday night, have been drowned. The students, Brainard Bailey, of Troy, N. Y., an editor of the Cornell Daily Sun; Reinhart A. Zimmer, of Rochester; Miss Martha E. McCormick, of Troy, N. Y., and Miss Neil C. Mallett, of Middletown, N. Y., were guests at a house party party at Willow Point given by the Kappa Kappa Gamma sorority. The four put out in a hired canoe to paddle to Renick, planning to walk back along the lake shore.

The waters of the Pacific Ocean were yesterday let into the Panama Canal. A giant blast, composed of 32,750 pounds of dynamite, was shot, demolishing the dike to the south of the Miraflores locks and allowing the water to flow into an extensive section in which excavations have practically been completed. The blast was successful in every way, an dthe vibration was felt in Panaand the vibration was felt in Panaearthquake.

To protect her sister, who was being chased by her husband with an axe, George House, at Harvey, W. Va., Saturday night, killed his brother-in-law, Thomas Manafee. In the early part of the day neighbors say Menafee beat his wife and the climax came late in the evening, when he is said to have seized an axe and threatened to chop off the woman's head. Mrs. Menafee ran into the room occupied by her brother and locked the door. The husband broke open the door As he burst into the room with uplifted axe House shot him. House went before Justice Jasper, who acquitted him.

Sephen Dudley Field, 68 years old, sometimes called the "Father of the Trolley Car," and an inventor of international prominence, died yesterday at Stockbridge, Mass. CANADA POLICE HOLD ALEXANDRIA BOY

T. Walton Taylor Charged With Securing Money on Bad Checks.

TRANSACTIONS HERE.

Requisition Papers Requested by Commonwealth Attorney — Chief Goods to be Sent for Fugitive.

T. Walton, Taylor, 22 years-old member of the Alexandria Light Infantry, and well known here, is under arrest in Toronto Canada, and will be brought back to Alexandria under charges of abtaining money under false pretences and forgery, a warrant having been issued this morning against him at the investigation of several merchants.

Chief Goods, of the Alexandria Police Department received a letter this morning from H. J. Grassatt, chief constable of Toronto stating that Taylor was under arrest in that city on charges of vagrancy and that he would be held on that charge until May 33d. Letters which were found on him showed that he was wanted for forgery in Alexandria and the Toronto police asked the authorities here to indicate what action they desired taken.

Taylor is charged with securing money from a number of Alexandria merchants by means of checks, to which the name of his father, Robert Taylor, a well known dairyman, who lives on North Washington street extended. One check for $50 was given to Julius Wolf, a King street merchant, who exchanged clothing to the value of $30 and $20 in cash for the worthless paper. Another check for $50 was taken by the Hotel Rammel and Taylor was given $20 in cash and he promised to come back next day for the balance. Both of these transactions took place on April 23d. The two checks are both signed by Robert Taylor, payable to T. W. Taylor and endorsed by the latter. It is believed that several other merchants have been victimized out of smaller amounts.

Immediately after securing the money from Wolf and Rammel Taylor left Alexandria and his whereabouts were not ascertained until today.

Taylor will be brought back to Alexandria as soon as requisition papers can be secured. An application was made for them today by Samuel G. Brent, attorney for the Commonwealth. They must be signed by Governor Wm. H. Mann and will be addressed to the Canadian authorities. Chief of Police Goods will go from here to Toronto, Canada, to bring the young man back.

AFTER GAMBLERS.

Portsmouth to Put Stop to Betting on Baseball Games.

Portsmouth, Va., May 19.—There will be not betting at Bland Park on the outcome of a basebell game, if the wishes of the management of the Portsmouth club are respected, and that the wishes of the management will be respected is assured in that the rules and laws against gambling at baseball games will be enforced

It came to the notice of the Portsmouth owners that many bets were openly laid on the Norfolk-Portsmouth game in the grandstand and in the bleachers.

There is no question of the fact that parties who lay bets in the park will be criminally prosecuted and every effort will be made to apprehend the guilty parties.

SEASONABLE WEATHER.

Conditions Yesterday Ideal And Suggestive of Early Summer.

The weather yesterday was warm and clear after the rain of Saturday and everything was growing vigorously.

During the early days of the week the weather will be generally fair over the Eastern portion of the country. Low pressure prevails westward and northwestward of the Rocky Mountains, over the North Pacific Ocean and Alaska, and the eastward drift of this depression will caues a continuance of the showers in the Pacific States and the Plateau Region for a day of two and their extension early in the week into the Plains states, and the Missouri Valley. By the middle of the week the showers should extend through the Great Central Valleys and the Upper Lake Regions, and during Thursday or Friday into the Lower Lake Region, the Middle Atlantic States and New England. After the middle of the week generally fair weather should prevail west of the Mississippi River for a few days, with higher pressure, but by the end of the week another disturbance will probably appear over the Canadian Northwest. In the South Atlantic and East Gulf states occasional local thunderstorms will contique, while in the West Gulf states local showers are likely during the first half of the week.

Temperatures will be moderately low early in the week over the middle and northern sections, and higher later in the week, but not unusually so. In the South they will be about normal.

FIRE IN WASHINGTON.

Alexandrians Watch Firemen Fight Stubborn Blaze.

The fire in the basement of the building occupied by the geological survey, on F street, between Thirteenth and Fourteenth, yesterday afternoon about 3:30 o'clock caused considerable excitement and the assembling of a large multitude among whom were a number of Alexandrians who were in the vicinity at the time.

Reports reached this city to the effect that the entire square was burning, but this proved to be erroneous.

Fifteen firemen, including Chief Wagner, were taken to the Emergency Hospital, some of them suffering from convulsions; many of their comrades were felled by noxious fumes; the office of the American Express Company was completely wrecked, and the stock in the adjacent stores damaged to an extent of thousands of dollars, in the stubborn fire which orignated in the basement of the building occupied by the geological survey.

When the blaze finally was under control the situation was summed up as follows:

Twenty-five firemen overcome by smoke and gas.

Thirteen now in Emergency Hospital; six in a serious condition.

Total damage estimated at $40,000.

This was the fifth serious fire in the same building in the last ten years, not taking into account numerous small blazes in various departments which were distinguished by building employes without outside assistance.

The cause of the fire, according to fire marshal, was spontaneous combustion.

ANTI-ALIEN LAW STILL HANGS FIRE

Governor Johnson May Take Full Time Limit Before Signing.

MIKADO'S NEXT MOVE.

Tension Said to be Growing in Official Circles Notwithstanding Reports to the Contrary.

Washington, May 19. — Tension over the Japanese situation continues to excite anxious attention in official official diplomatic quarters, but there are no specific developments at the White House, the State Department or the Japanese embassy.

Nine of the thirty days Governor Johnson has, under the California Constitution, to sign the alien land bill has now lapsed, and the impression is beginning to gain ground here that the governor will avail himself of the full measure of time, even if he has declared his purpose to approve the Webb bill. Secretary Bryan has not communicated with the Governor since the reception of his telegraphic message setting out his reasons for upholding the action of the Legislature, but it is simply waiting for the final act of signature before making reply to the Japanese note protesting against the legislation.

Whether the Japanese embassy will continue to await the expiration of the full thirty-day period of grace, and before making representations on the subject to the State Department depends entirely upon the judgment of the Foreign Office in Tokyo, for from this point forward all of the proceedings in the negotiations will be "adopted referendum."

It has been suggested that although there may be some preliminary exchanges before the event the Japanese government can find no technical reason for demanding relief before the commission of some action, under the terms of the Webb law, to the detriment of the Japanese subject. In that case a further considerable delay is probable, as the act will not go into operation for a period of ninety days after it receives the approval of the governor. It is generally accepted that one of the preliminary points of protest by Japan is that the California law is in contravention of the treaty of 1911, but exactly wherein has not thus far been discussed.

APPEALS TO SUPREME COURT.

Joe Malloy Claims That Virginia Cannot legally Execute Him.

Washington, May 19.—On the ground that death by electrocution rather than hanging interferes with his constitutional rights, Joe Malloy, of Virginia, has perfected his appeal to the Supreme Court of the United States from the death sentence by electrocution imposed upon him by Virginia courts.

Malloy was convicted of having murdered Prentiss Moore, of Bennettsvile, Va., whose youthful body was found with that of Gay Rodgers in a ditch, with gunshot wounds telling an incomplete story of their death. after the date of the murder and before the trial, the commonwealth changed the method of death punishment from hanging to electrocution. Malloy claims that to him this change is an "expost facto" law prohibited by the Constitution.

In 1889 the Supreme Court decided in a New York case that death by electrocution was not a cruel and unusual punishment as forbidden by the Constitution but it has never passed upon exact point raised by Malloy.

PROBING MURDER OF MARY PHAGAN

Factory Head Accused of Causing Death of 14-Year-old Girl.

DASTARDLY CRIMES.

Details of Assault and Killing—Victim About to Regain Consciousness When Given Quietus.

Atlanta, Ga., May 19.—The theory evolved by the detectives as to how pretty fourteen-year-old Mary Phagan met her death in the National Pencil Factory several weeks ago, and about which Hugh I. Dorsey, solicitor general, is seeking to build a case against L. M. Frank, the factory superintendent, has just ben made public. Mr. Frank is a graduate of Cornell, a leader in charitable work, and belongs to several clubs.

He and Newt Lee, the factory's colorde watchman, have been held by the coroner's jury, and the evidence against them will be presented to the grand jury at an early date.

This is the police theory, based on Sherlock Holmes' methods of detection, of how the girl was killed.

She arrived at the pencil factory between 12 and ten minutes past 12 on Saturday, April 26. A short time after she was lured to the metal room on the second floor, where she worked. The big doors of this room were closed, making it almost impossible for the two men working on the fourth floor to hear any outcries. Then she was overpowered and assaulted, and her assailant, realizing that he had committed a crime which would cost him his life, if it became konwn, argued with her and entreated her to keep silent.

When she reiterated her intention to tell he struck her a terrific blow in the left eye, causing her to fall against the handle of the lathe. The back of her head struck on the lathe handle, rendering her unconscious, and producing a deep wound. Then her assailant got a cord and looped it around her neck.

He dragged her into one of the small dressing rooms near by and placed papers and some old garments beneath her head. Then the door of the dressing room was closed and the assailant went away believing that the girl was either dead or dying.

Later in the afternoon when there was no one else in the factory, he returned, and either carried or dragged the body to the elevator, which he ran to the basement. The motion of the elevator or the slackening of the loop knot in the cord about the girl's neck resulted in her partially regaining consciousness, and when the assailant observed this he tightened the cord about her neck and dragged her to the rear end of the basement. He then tore the wide hem from the girl's underskirt nad knotted it about her neck to make sure that she would be strangled.

Movement For One Cent Postage.

The National One Cent Letter Postage Association, with offices in Cleveland, Ohio, is actively engaged in the work of attempting to interest business men in all parts of the United States with a view of their assistance in the work of securing from Congress from suitable laws for a one cent postage rate on letters from all domestic points.

The Alexandria Chamber of Commerce is being importuned to aid in this work. The secretary will very likely bring up the matter at an early date at one of the meetings of the chamber.

NEWS OF THE OLD DOMINION.

NATIONAL T. P. A. CONVENTION

Will Meet in Richmond June 8 And Continue to 14th.

Richmond, May 19.—The largest commercial convention ever held in Richmond, and one which represents four years of work and planning on the part of local officers, is that of the Travelers' Protective Association of America, which will be held here June 8 and 14th inclusive. It will be the first time the association has come here since 1901, when the delegates were entertained at Old Point Comfort because the Jefferson Hotel had just burned down.

The most spectacular feature of the convention will be the procession on Monday morning June 9. A unique advertising device has been secured for this event, in the shape of a traveling man's sample case, filled with samples of all the various Richmond-made goods, and marked in conspicuous letters: "Do Not Open Here; Carry or Send Home." Each of the delegates and visitors will carry one of these sample cases in the parade, and in order to expedite their wide distribution, a parcels post and an express office will be maintained in the lobby of the Jefferson Hotel.

The 1,200 delegates who will participate in the parade will be dressed in costumes typical of the forty-two State swhich they represent. Thus the Texas contingent has already announced its intention of appearing in cowboy regalia, while the Pennsylvanians will dress as quakers.

The body of delegates will be divided into two parts, one of them comprising those from Virginia, and the other those from the remaining forty-one states. Daniel W. Sale, of Lynchburag, a member of the state board of directors, will lead the Virginia division.

Julian Y. Williams, of Alexandria, is chairman of the national legislative committee:

Post F, of this city, will be represented by Messrs. A. D. Brockett, A. H. Thomson, Jr., and T. F. Ellis.

Woman Suing Bank Firm.

Bristol, Va., May 19.—Mrs. Frances Dunn, widow of Adam Dunn, has filed suit through attorneys Osborne and Dunn, in the Chancery court of Bristol, seeking to recover $2,000 from the directors of the defunct Citizens' bank, of Bristol.

Mrs. Dunn held this amount in stock in the institution, and the fact that it failed, she charges was due to the neglect and mismanagement of the directors. This is the first suit that had bene filed to recover on stock.

The depositors, who had $375,000 in the defunct bank, were saved from loss by an arrangement whereby the First National Bank of Bristol, took over their accounts and agreed to make the deposits good, dollar for dollar.

APPLE BEARING TREES.

Virginia Has as Many as California, Washington and Oregon.

Richmond, Va., May 19. — The Southern home-seeker says Virginia is almost as enthusiastic over apples as Oregon. Fortunes are being made on land that was considered almost valueless a few years ago. One old man has a little orchard which he farms out to a company that does all the work and pays him $2,000 for the apples on the trees. The only expense to him is the taxes.

Offers as high as one thousand dollars an acre for bearing orchards are being made. One man sold his crop of fruit from four acres for $2,500. There is a single tree in Nelson county which is reputed to have yielded over $100 worth of pippins in one crop.

A prominent orchardist, living near Roanoke, in the Bear Creek country, as it is called, sold his 1909 crom from 800 trees for $15,000 cash, on the trees, this being at the rate of $600 an acre. In Virginia it is customary to indicate the size of orchards by the number of trees and not be the acreage, as the land is often so rough that regular planting is impossible.

So much for the profits in apples. Let it be understood, however, that they are not to be won except by hard work, the application of well-established principles, plus common sense, and the expenditure of some capital. The location is the first consideration; but that assumes less importance if one remembers that there are varieties that will grow almost anywhere.

A rough hillside, quite unfit for growing general crops, is often admirably adopted to orcharding. Valleys are to be shunned as a rule, because the frost settles in the low places. Cold air falls, as everyone knows, so that an orchard on the hillside may be passed over by the spring freezes while only fifty feet lower suffers severely. A north slope is better, generally, than a southern one, because the buds get less sunlight and are not started into growing so early in the spring.

Postoffice Robbed.

Lynchburg, Va., May 19. — The postoffice at Gretna, formerly Franklin Junction, forty miles south of Lynchburg, was robbed Saturday morning at 1 o'clock, the robbers getting $600 and two registered letters. The same was cracked with dynamiae. The interior of the office was littered up with mail this morning when the robbery was discovered. A resident of the village was awakened by the explosion, but hearing no further noise went back to bed without investigating. There is not the slightest clue to the identity or the perpetrator of the crime.

VIRGINIA IS LOSER.

Judge Scott Decides Against Auditor in Suit Brought by Norfolk City Sergeant.

Richmond, May 19.—Judge Scott, of the City Circuit Court decided against State Auditor Moore in the suit brought against him some time ago by J. F. Lawler, City Sergeant of Norfolk, to compel the Auditor to pay him certain fees.

Under an old statute the sergeants have been allowed 50 cents for every prisoner locked in jail. Under a more recent statute the Auditor held that when officers are paid by their cities or counties they are not entitled to fees from the state.

Judge Scott's decision will, of course, be of great interest to city and county sheriffs all over Virginia, who, unless the Supreme Court holds otherwise, will continue to receive their 50-cent fees until the fe system is abolished by the Legislature.

MOTION PICTURE LEAGUE.

Two Hundred Picture Houses Fear Adverse Legislation.

Richmond, May 19.—Motion picture exhibitors from every section in the State will meet in Richmond next Friday for the purpose of organizing a Virginia State branch of the Motion Picture Exhibitors' League of America. The convention will be in session all day at the Jefferson Hotel, and after framing a constitution for the government of the Virginia branch, will elect officers who will guide in the first year.

President M. A. Neff, of the Motion Picture Exhibitors' League, of America, will come from Cincinnati to deliver an address, and there will be speeches by members of the league from other states.

The convention will elect delegates and alternates to the national convention of motion picture exhibitors, which will be held at the Grand Central Palace, New York, July 5-12. The Richmond meeting will end with a dinner at the Jefferson Hotel Friday night.

In the State of Virginia there are 200 theatres depending upon the film for their chief attraction and entertaining daily approximately a quarter of a million people.

"Motion picture men throughout the United States are organizing to raise the standard of the films shown at their theatres, and to protect themselves against harmful legislation," says L. R. Thomas. Mr. Thomas is one of the national Exhibitors' League, and will be in the city until the Virginia branch is organized.

"Forty States already have branches—Virginia will be the forty-first," says Mr. Thomas. "While the state has been camparatively free from obnoxious special legislation on the subject of motion picture theatres, it is well that there should be a state organization to protect the industry, should such legislation be attempted. There are already signs indicating that the motion picture business in this state will be made the subject of special laws."

NARROW ESCAPE.

Richmond Bricklayer Falls From Sixth Story of Building.

Richmond, May 19.—Losing his balance when a window frame, which he was grasping in order to brace himself, gave away, James T. Hamilton ,twenty-eight years old, fell forty feet Saturday morning, from the sixth floor of the Monroe Apartments building, in process of construction at Laurel and Franklin streets, landing on the roof of a three-story residence on Franklin street, immediately adjoining the building on the west side. Had Hamilton fallen ten feet beyond the point he did fall he would have landed on the ground and probably been instantly killed.

He sustained a broken ankle, a fracture of the chin, and severe bruises of the body, and his face was badly cut in several places.

SECRETARY BRYAN DENOUNCES JINGOISM.

Secretary of State's Bryan denunciation of jingoism is just. It is a rebuke to the many thoughtless people of all nations who talk of war with as little realization of its terrible import as if they were anticipating the pleasures and excitment to an excursion.

A cartoonist has pictured the mobilized army as a serpent of brilliant colors, but armed with a deadly sting. While we have but little faith in the modern movements, launched by well-meaning people, for the purpose of preventing conflicts in future, we realize the fact that sensible diplomacy often casts oil upon troubled waters and clears the atmosphere of sanguinary purposes and silences the thoughtless who desire to see carnage on every little issue raised between nations.

During the civil war an incident occurred on a railway train which can be retold. A government contractor, encased in a fine overcoat, was engaged in a conversation with a traveling acquaintance. Their talk was mainly on the chances of the war being brought to a close. The contractor, among other things said, signified his desire for the conflict to continue at least a year longer, as by that time he would have amassed a competence to keep him for life.

At this stage of the conversation a woman, thinly clad, approached, and directing her conversation to the contractor said: "I heard you imply that you desire the war to continue another year. I have lost two sons in this struggle, and, in sympathy with every mother who has a son in the army, I hope it will end today."

The vigorous denunciation of a "subsidized patriotism which seeks to create war because of the profits in armor plate and battleships" which marked an address by Secretary Bryan yesterday at a Hague anniversary meeting, under the auspices of the Washington Peace Society, at the First Congregational Church was published throughout the country.

"War is in the interest of a few people, not of all," Mr. Bryan declared. "The profits are garnered by a few, while the masses pay the taxes. A few men gain glory, while the mothers of the nations furnish the sons who make food for battlefields. War rests upon feeling, not upon necessity.

"Back of much of the furore for war is a selfish interest in the manufacture of battleships. And there are men so unpatriotic that they try to stir up trouble in another country against their own so as to make personal profit therefrom. Is there any baser use for money?"

ANNUAL MEETING OF FREE KINDERGARTEN.

It is hoped that there will be a large attendance at the annual meeting of the Alexandria Free Kindergarten Association which will be held tonight in the Young Peoples Building. Not only do the ladies who work so earnestly for the success of this important addition to Alexandria's school system deserve encouragement by the attendance of a large audience, but the principal speaker this evening, Dr. P. P. Claxton, commissioner of education of the United States, is a man who occupies such an important position in the educational world, that he should be welcomed to Alexandria by every man and woman in the city interested in the cause which he so able represents.

TO MARRY ONLY THE HEALTHY

Minister Opposes Eulogies From Pulpit at Funerals.

Newburgh, N. Y., May 19.—"In accordance with the views of the Chicago Ministerial Association and other eminent ministerial bodies, I have decided that no marriages will be solemnized by me unless the contracting parties procuce a physicians' certificate showing that there is no constitutional reason why they should not be married," was the statement made to the congregation of Calvary Presbyterian Church yesterday morning by Rev. Joseph W. Babbitt.

He was installed as pastor the past week by the Presbytery of North River and this was his first sermon as pastor. Mr. Babbitt also referred to the custom of expensive funerals that in some cases the relatives were unable to pay for. He said that eulogies from the pulpit at funerals were in bad taste and he should refrain from them except on special occasions.

Will Die From Poison.

Macon, Ga., May 19.—Sanders Walker, the young and wealthy Macon man, was informed by his physicians today that his last hours on earth are at hand.

Mr. Walker's case has aroused a great deal of interest throughout the country because of the fact that since swallowing deadly poison he has been able until today to walk about the house, talk with members of his family, make arrangements for carrying on his business after death, and consoling his relatives.

"I wish it was over now," he said this morning, when he found himself unable to leave his bed. He is now suffering intense pain, and is very weak, but conscious.

Strange Woman Drowns.

Philadelphia, May 19.—An unidentified woman, about forty years old fell from the pier at the foot of Lombard street into the Delaware river last night and was drowned. Her body was recovered later by the police boat Ashbridge. The woman weighed about 120 pounds, was five feet eight inches tall, dark-haired and wore a white waist and dark skirt.

Wireless messages from United States battleships on the Atlantic are being picked up by a wireless station at the University of North Dakota, in Grand Forks, while from the west the wireless messages that have been sent by vessels on the Pacific ocean to points along the shore have registered at Frank Forks. Dr. A. H. Taylor, builder of the wireless station here, has heard the wireless station at Key West several times, and he believes that he has also heard the Colon, Panama station. Messages from battleships that have been received at Grand Forks have been those directed to Federal stations along the cost giving the locations of vessels. These messages travel several thousand miles in some instances, and indicate the remarkable power of the wireless.

SMILES.

By The Second Ward Bard.

THE MOON.

The moon looks down on this world of men with its wars and strife,
And he doesn't envy their petty plots and their happy ways of life,
He's happy and free in his boundless course through unknown skies,
And he hates the Earth with its follies, foibles and froth and lies.

So the old moon winks his eye and keeps a still tongue in his head,
His life is like an open book, by all men it is read,
He goes his way so bold and free, adventures for to seek,
He runs his course without remorse and gets full each fourth week.

With the unsettled Japanese situation and Gandil and Foster both out of the game, a fellow keeps worried all the time.

Of coure we don't begrudge the farmers the rain they needed so badly, but this sunshine comes pretty near being good for what ails you.

Polly put the kettle on, and we'll have tea,
I'll tell you the news I know and you'll tell me,
We'll gossip 'bout our neighbors, oh how happy we shall be,
So put the kettle on, dear Poll, and brew some tea.

Sixty-Seven Burned to Death.

Shanghai, China, May 19.—Sixty-seven Chinese gentry and farmers were burned to death yesterday in a temple in Runyan province, where they had gathered to discuss resistance to the troops sent by the imperial government to destroy the poppy crop in the war against opium. According to a dispatch to the North China Daily News, the soldiers set fire to the building in which more than one hundred cultivators of opium of the Shanchau ting district, had essembled on the arrival of the troops.

A number of persons were injured yesterday at Lancaster, Pa., when the big tent of the Buffalo Bill-Pawnee Bill show was blown down during a thunder storm. The accident occurred shortly after the show opened and a panic ensued as the many poles, ropes, and canvas fell, burying the audience. That none were seriously injured or killed was in the nature of a miracle, as several broncho busters and ropers were performing in the big tent when it collapsed. A considerable amount of wearing apparel, hats, and valuable articles were lost during the scramble to get from under the canvas.

A CARD.

To the Editor of the Gazette.
Sir:

Replying to the card of my husband, published in your paper yesterday, I beg to say that I did not desert him and take away his furniture, but he deserted me by ordering me out of the house, and I took only the furniture that belonged to me, and was necessary for the use of myself and three babies. I have sued him for a divorce on the grounds of desertion and cruelty, and the court will decide who is to blame.

Respectfully,
MRS. FLORENTINE SMOOT.

WORK OF BAPTISTS.

Spirited Attack Made on Sunday School Lesons.

St. Louis, Mo., May 19.—With a few slight changes, the various subsidiary boards of the Southern Baptist Convention were renewed with the re-election of a majority of the 1912 officers and members at Saturday's session of the convention.

The day was marked by several radical proposals regarding the Sunday school lesson leaflets and other matters of unusual interest to delegates and their constituents. A movement for the establishment of an educational board by the convention wa sstarted, but no action will be taken until next year.

In an attack on the Sunday School leson leaflet prepared by the international lessons committee, representing sixteen Protestant denominations, speakers session ur urged the withdrawal of the Baptists from the committee and the publication of their own individual Sunday school lessons.

Dr. Tull, of Paducah, who was designated to deliver the memorial, declared the question of Sunday school leaflets the most vital of denominational issues. In pointing out what he termed the failures of the "international lessons," Dr. Tull said:

"The present system has proved by results to be doctrinally inadequate. It does not enlighten the pupil. It has no intellectual incentives. It gives no place for test of Bible scholarship. It affords no uniformity of doctrine. It is to blame for most Sunday school problems such as attendance, interst and idgnity. It does not make great teachers. It lacks teaching matter and it lacks system."

The convention chose Nashville, Tenn., as the next place of meeting, and fixed May 13, 1914, as the date

Rev. L. D. Warren ,of Atlanta made a report on the $1,000,000 fund which is being raised for the support of poor churches in the South. He said that more than a fourth of the amount had been raised.

ACCUSED OF HERESY.

The writings of Dr. Wm Adams Brown, one of the professors of the institution, will be quoted in the minority report as sufficient cause for the assembly's repudiating the institution. Dr. Francis Brown, head of the seminary, as well as Dr. Wm Adams Brown will be in the assembly when the reports are made, they being members of the delegation.
